

Good Manufacturing Practices

February–Clothing and Personal Equipment

Laundry & Approved Clothing

- ▶ Washable food industry towels will be laundered and maintained by the employer.
 - ▶ Personnel, contractors and visitors who work in or enter areas where products, ingredients or primary packaging are exposed must wear appropriate clothing that is clean and in good condition.
- 

+

=

Laundry & Approved Clothing

- Work wear must be provided, laundered and maintained by the employer.
- Employees WILL NOT launder their own uniforms. >>

Laundry & Approved Clothing

- ▶ Where laundry service is provided, collection points for soiled work wear must be separated from food production or packaging area.

Laundry & Approved Clothing

- ▶ Employees who work in the facility will wear **ONLY** company-approved clothing.
- ▶ Full time employees will wear company provided shirts appropriately snapped to an acceptable height and pants along with dedicated footwear.

Laundry & Approved Clothing

- ▶ Initial and part-time employees will wear a company-issued white shirt and scrub pants, along with dedicated footwear.

Laundry & Approved Clothing

- ▶ If an undershirt is worn, it must NOT have any hoods, buttons or pockets.

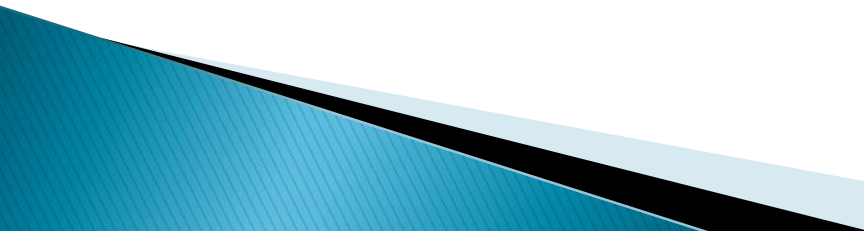

Laundry & Approved Clothing

- ▶ If the undershirt is long sleeved or past the employees elbow, disposable sleeve protectors must be worn when in contact with product or product contact surfaces.
- ▶ It is acceptable for an employee to roll up their sleeves and not wear sleeve protectors.
- ▶ Sleeves are intended for a single days' use if stored in a sanitary manner when leaving the work station. Sleeves must be replaced if they become soiled or contaminated.

Laundry & Approved Clothing

- ▶ Clothing shall provide adequate coverage to ensure that hair, perspiration or other foreign materials DO NOT contaminate the product.
 - ▶ All clothing must be free of potentially offensive markings.
 - ▶ Pockets above the waist **MUST** be removed or sewn shut.
- 

Laundry & Approved Clothing

- ▶ Only zippers, Velcro or snaps may be used as the fasteners on shirts, coats, laboratory jackets or smocks.

Changing Facilities

- ▶ Changing facilities shall be provided for all personnel, whether it is staff, visitor or a contractor.
- ▶ These shall be sited to allow access to the production, packaging or storage areas.
